**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I chose Sonic.net to provide internet service to my family because it was the only available provider at my location that did not require me to bundle TV service in order to have access to broadband internet.

My family lives well below the poverty line and would most likely be forced to forgo internet access altogether if my rates were raised, which would be more likely due to lack of competition.

I worked long hours for many years installing water pipelines, sewers, and rail lines. Now I am disabled, in large part from my work providing you with access to clean water, working sewers, and mass transit. Please keep a competitive market in place so my family can retain access to the internet.

Thank you for your time and have a good day.

Michael Lewis
